

MINUTES

CENTRAL STATES SECTION COMMITTEE MEETING

Held: Monday 5 May, 1986

1. Introduction

J. Johnson, Section Chairman, reported to the Section members the decisions of the Board at their meeting held the previous afternoon for ratification by the Section membership at large. He included in this a tribute to L. Diehl for an outstanding meeting.

2. Revitalization Committee Actions

Following actions of the Revitalization Committee, a new format for future meetings had been approved.

- the scope of all future meetings would be more general, and always would cover fundamentals and applications.

- there would be 4 invited speakers

- paper length requirements would be reduced; they would be no more than 6 pp., to be submitted 2 months in advance, with 1 copy to the Program Chairman

- the papers would be made available as a bound book as part of the registration fee.

3. Sites

The sites selected ranged from Texas to Pennsylvania. The basis for selection would be: interesting location, easy access, and an interested local host. The Site (Local) Chairman and Program Chairman positions had been dissociated.

Selected sites for the next 4 meetings were:

- 1987: Argonne National Laboratory (ANL) with GRI support. J. Kezerle was the Program Chairman

- 1988: Indianapolis, Indiana, with joint hosts: Purdue, Cummins, and GM/Alison. S. Shahed was Program Chairman.

- 1989: Detroit, with Ford Motor as host. Program Chairman to be selected.

- 1990: New Orleans, with T. Lester as Program Chairman.

4. Treasurers Report.

At the 1985 meeting, there were 150 attendees, with 136 paid attendees. Revenue was \$2400; student honoraria were \$2500.

The financial balance for 1985 was an increase in assets, due substantially to subsequent sale of meeting papers. Initial assets totalled \$16017; Income for 1985 was

#10946; Expenditures were \$9716, for an increase in assets of \$1230, to \$17247.

5. Papers Chairman

This was a new position, to which T. Ryan had been appointed, to be responsible for repository and sale of past meeting papers. This had previously been done by the Treasurer, but this was no longer feasible on the retirement of W. Weatherford who would continue as Treasurer but without secretarial support would not be able to continue to be responsible for the papers.

6. Nominating Committee Actions.

The Nominating Committee proposed the following Board Members for appointments until 1988, submitted to the Members at large for ratification or other nominations

1992 - 6 year terms

C.W. Kauffman

J.A. Kezerle

B.D. Peters

D. Foster

T. Ryan

1990 - D. Bahr

1988 - J. Caton

C.S. Daw

The motion to approve the proposed candidates was proposed by W. Weatherford, seconded by A. Levy, and approved by vote.

7. Status Report: 21st. Combustion Symposium

H.B. Palmer reported on the status of the planning for the 21st. International Symposium. 465 papers had been submitted, and 220 had been accepted for presentation, with additional papers to be given at poster sessions.

In answer to a question regarding transportation, it was stated that there would be no group flight but that arrangements were in preparation for flights at special rates through selected travel agencies.

8. With all business completed, the meeting was closed
